[LinkedIn Profile](#) | [GitHub Profile](#) | [Portfolio](#)

Skills

Languages: C/C++, Java, Python, HTML/CSS/JavaScript

Frameworks: ReactJS, Django, Flask

ML/DL Libraries: TensorFlow, PyTorch, Scikit-learn

Data Science & Analytics: Pandas, NumPy, Matplotlib, Seaborn, SQL & NoSQL, MongoDB

MLOps & DevOps: Git, GitHub, Docker, Kubernetes

Additional Skills: Data Structures and Algorithms, Object-Oriented Programming, Feature Engineering, Cloud Computing (AWS, Azure), RESTful APIs

Work Experience

BSD Technologies Pvt. Ltd, Gurugram

Jun 2024 - Jul 2024

Full-stack Developer Intern

- Built a comprehensive e-commerce website using React JS, leveraging its capabilities to create a seamless user experience, and enhancing my proficiency in frontend development.
- Designed, developed, and integrated APIs to facilitate smooth interactions between the frontend and backend, further solidifying my understanding of full-stack development.
- Successfully delivered a complete e-commerce project, from planning to deployment, demonstrating my ability to work independently and manage complex projects efficiently.
- Applied problem-solving skills to overcome technical challenges, ensuring timely completion of the project and improving my overall coding efficiency.

NetcoreInfo Business Group, Noida

Apr 2023 - Jun 2023

Full-stack Developer Intern

- As a full stack developer trainee, I worked on a project using Python and Django, under the guidance of the lead.
- Throughout the project, I was an active team member, working collaboratively with the team.
- In this project, I utilized Python and Django for backend and frontend development, and gained experience in database management.
- At the end of the project, my work was deemed satisfactory, and I received appreciation for my efforts.

Education

Vivekananda Institute of Professional Studies – Technical Campus, GGSIPU

Sep 2023 - Present

B. Tech in Artificial Intelligence & Machine Learning

CGPA: 7.96

Relevant Coursework: Object Oriented Programming, Databases, Data Structures and Algorithms, Software Engineering, Operating Systems, Computer Networks and Internet Protocol, Fundamentals of Machine Learning, Fundamentals of Deep Learning, Design and Analysis of Algorithms

Guru Tegh Bahadur 4th Centenary Engineering College, New Delhi

May 2020 – Jul 2023

Diploma in Computer Science and Engineering

CGPA: 8.32/10

Relevant Coursework: Data Structures, Object Oriented Programming, Database Management System, Java

T.S Inter College Paraspur Gonda, UP

2020

XII (UP BOARD)

Percentage: 69%

Relevant Coursework: General Hindi, English, Mathematics, Physics, Chemistry

S.S Mandir Inter College Paraspur Gonda, UP

2018

X (UP BOARD)

Percentage: 75%

Relevant Coursework: Hindi, English, Mathematics, Science, Social Science, Drawing

Project Work

- 🚀 **AI Enhanced Data Analyzer & Summarizer:** Built an AI-powered Streamlit platform that performs instant data analysis and document summarization in one interface. It converts natural language queries to SQL using Groq LLaMA-3.3-70B, executes them in DuckDB, and visualizes results with Plotly. The system also extracts and summarizes content from PDFs, CSV, Excel, and text files using SentenceTransformer embeddings and FAISS-based semantic search. This project streamlines manual workflows and provides fast, automated insights for users.

- 🚦 **Medicine Recommendation System:** Developed a symptom-based disease diagnosis web application using Flask and a combination of machine learning algorithms, providing users with accurate and timely healthcare information. The application leverages the power of machine learning to help users identify potential illnesses based on their reported symptoms, addressing a common issue where people often experience symptoms and want quick answers about their health concerns.
- 🚦 **Employee management system:** Developed a comprehensive employee management system using Python and Django framework, focusing on implementing CRUD (Create, Read, Update, Delete) functionality to enhance administrative efficiency.

Awards and Certificates

- Certificate of Completion – Understanding Sustainability Reporting in India, CSE-AAETI, Rajasthan – June 2025
Completed 4-day residential training on ESG, BRSR, and sustainability reporting frameworks.
- Certificate of Appreciation – Mahakumbh 2025, Sharda University – Jan 2025
- Certificate of Membership – R&D Club (Anusandhan), Sharda University – Oct 2024
Granted honorary membership for contribution to the Research and Development club.
- Conference Presentation – IC-AMSI 2024, VIPS-TC, Aug 2024 Presented
research paper: "Machine Learning-Based Predictive Analysis for Diabetes: Unveiling Prognostic Insights"
- Introduction to Generative AI on Google Cloud
- Introduction to Software Engineering on IBM
- Java to Python OOP: Bridge the Gap for Java Developers on LinkedIn
- Develop GenAI Apps with Gemini and Streamlit on Google Cloud
- Python 101 for Data Science on IBM
- TCS iON Career Edge – Young Professional on TCS iON
